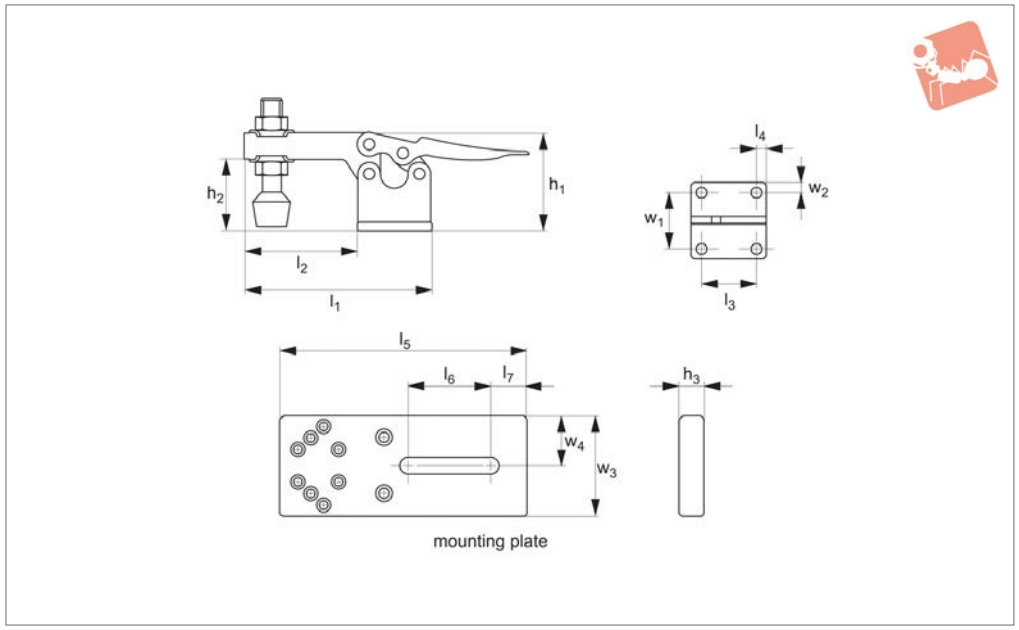
CMM Fixturing Toggle Clamp
with mounting plate



19322

Material
Single toggle clamp supplied with matching mounting plate.

Technical Notes
Hold parts for probing on CMMs. Sliding mounting base for easy adjustment and positioning.

Tips
Supplied with thumb screws to locate toggle clamp mounting plate.

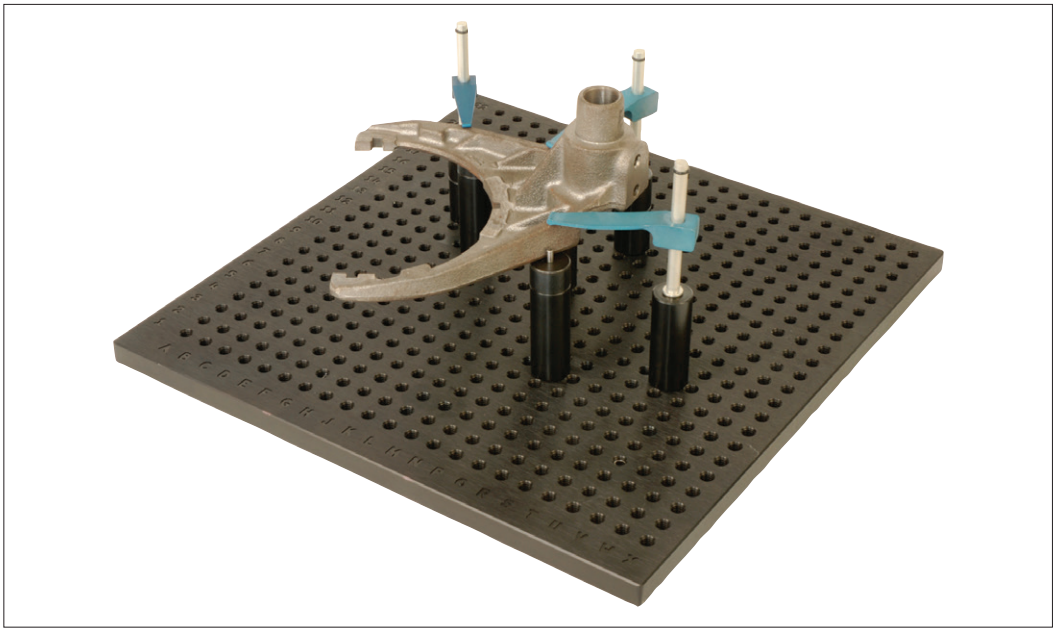
CMM Fixturing

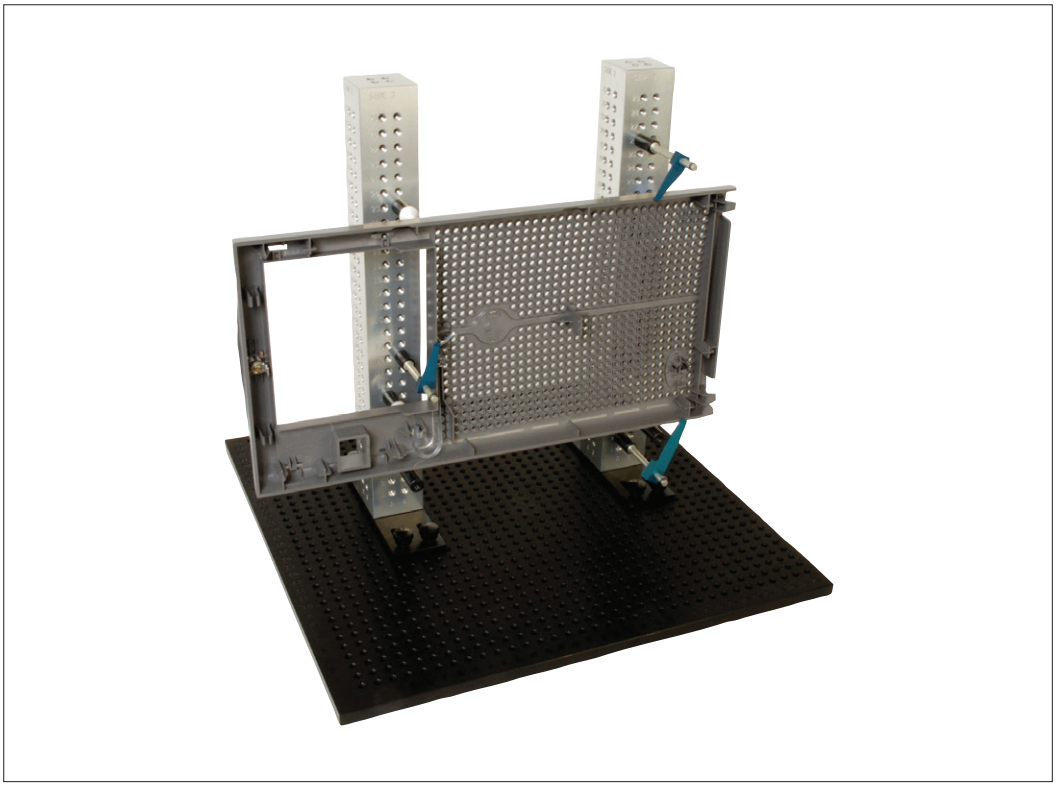
modular approach, flexible system

Wixroyd's CMM fixturing system is designed for easy assembly and high repeatability, eliminating the need to build dedicated fixtures. The system offers a highly accurate and flexible solution of holding parts while probing on CMMs.

Flexible

A variety of component parts as well as complete kits are available; to enable setup of fixtures in minutes.





- Aluminium base plates – hole based system with alpha-numeric labelling for easy set-up and recording of fixture positions.
- Fixture towers – ideal for fixturing of large vertical components.
- Soft-touch clamps – non-marking clamps providing the ideal force for holding parts during CMM probing.
- Locating components – rest pads, vee pads for cylindrical parts, pin rests etc.
